Demographic Questions:

For the past several years, The Heinz Endowments has promoted “Just Pittsburgh” as an aspirational vision of the region where everyone is treated with fairness, dignity and respect, and where everyone has an equitable opportunity to reach their fullest potential to thrive. We’ve used this vision as the foundation of our equity agenda to address historical structural barriers, disparities and racism that impact far too many.

While we maintain this commitment to the region, events of this year have magnified the need to deepen and prioritize our anti-racism and anti-discrimination efforts. We are addressing the root causes of racism, long-standing disparities, other biases and their many intersections. We will also increase targeted support to help develop policies and practices that counter systemic challenges.

We are still learning and trying to create change. We invite all of you to join us. Our approach for the Endowments is to collect and use data to expand our understanding of the needs of the communities and populations served, and how to target our resources to help us track progress, and to enable us to see how well we reflect our communities and populations.

As a starting point, we are soliciting your assistance in collecting demographic data on both your organization and the people and communities you serve. Please help us understand your grant proposal better by providing us with the following equity data about your organization, board, and grant activity management.

Answers are optional and self-reported to the best of your knowledge. Skipping a question is the same as declining to answer. If you are unsure or would like to provide additional clarifying details, a comments field is available for each section.
