About Fiscal Sponsors

A fiscal sponsor is a public charity exempt under 501(c)(3) of the Internal Revenue Code that provides control and oversight over the activities of a nonexempt group or individual. These activities must further general charitable purposes as defined in Section 501(c)(3). Fiscal sponsors may receive grants for activities that further charitable purposes but will be carried out by organizations or individuals that are not themselves exempt public charities under Section 501(c)(3).

The Heinz Endowments expects that fiscal sponsors, at a minimum, to:

1. Have ultimate discretion and control over the nonexempt recipient's activities. The control must be real.
2. Have ability to require certain actions and accountings by the recipient and to redirect funds if the recipient does not comply.
3. Have appropriate resources and expertise to oversee and control the recipient's activities.

Please contact your fiscal sponsor if you have questions on these points.

Demographics

Demographics via Candid allows nonprofits to share vital demographic information about their organizations in one place, on their Candid profile, where donors, researchers, funders and other interested and impacted individuals can easily access it. We encourage you to share your demographic data by claiming and updating your [Candid Profile](#).

By completing the demographics section, you are showing a commitment to equity and helping the sector learn. We hope other funders will also rely on this data repository and eliminate the need for non-profit organizations to describe their staffs and boards in multiple places.

Refer to [Candid's Help Guide](#) for collecting demographics at your organization, and their How to Guide for assistance adding the data to your Candid profile.

This is not an application requirement. It is one of many opportunities for us to know you better and one of many data sources that helps us assess how we collaborate with all people in the region. These data guide our understanding of the nonprofit landscape's representativeness in relation to populations served and of patterns in our grantmaking that suggest unintended biases that need to be addressed.

Thank you for your partnership.
